

Gideon Rasmussen
Vice President of Merchant PCI Compliance
Bank of America

Gideon Rasmussen is an Information Security Manager with over 10 years experience in fortune 50 and military organizations. His management background includes responsibility for security throughout an organization, IT operations management and establishment of compliance programs.

Gideon researches trends in the security industry and develops strategies to combat emerging threats. These real world challenges led Gideon to develop a flexible system of information security management. He has also authored many information security articles and is the owner of the Information Security Resources site.

Gideon is currently employed as a Vice President at Bank of America. Past positions include Director of Technical Operations, Infrastructure Security Manager and Information Systems Security Officer. Gideon has audited entire organizations, IT departments, large corporate data centers, hosting providers and secure operations centers.

Gideon is a veteran of the United States Air Force, a graduate of the FBI Citizens Academy and a recipient of the Microsoft Most Valuable Professional award.
