

Keith Haskett
Vice President of Operations

Keith has fifteen years of experience in business operations and has been with ATTUS Technologies, an industry leader in regulatory compliance software, since 2003. In his role as Vice President of Operations, he is responsible for managing cross-functional teams focused on strategic business growth, efficiency, product and process development, and customer service. Keith is extremely dedicated to customer service and has been successful in driving this culture at ATTUS with a 97% customer approval rating.

Keith is part of the ATTUS management team that drives product innovation, engineering process and design and overall company strategic vision. Additionally, Keith is a member of the ATTUS audit committee that oversees the successful completion of their annual SAS-70 Level II audit.

Keith is a graduate of the Belk College of Business at the University of North Carolina – Charlotte.
