Our entire family is deeply saddened that Alan has passed away. We loved him dearly and were inspired by his life and his spirit for 30 miraculous years. Alan gave hope to others by his positive attitude and his active participation in so many fundraisers and awareness events to help find cures for all children and young adults affected by medical disorders. Alan was especially proud of his association with the supporters of the WRAL Radiothon and Telethon for the children at Duke. Alan would give credit to his caregivers at Duke who beat the odds to give him more life and continue to give so much hope to so many children and their families.  
Al and Sue Aycock
