# Marcus Brandon

STATE REPRESENTATIVE | HOUSE DISTRICT 60

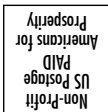

## *Marcus Brandon is Fighting for our Children.*

- In April 2011, Marcus stood before the NC House and defended his support for eliminating the state's public charter school cap. More public charter schools will provide children of color additional quality educational options.
- Rep. Brandon was a key supporter on a bill to provide additional educational options for families who have children with special needs, with support from legislators of both chambers.

Marcus Brandon has voted to give our families more school choice options. Marcus knows our families deserve a choice of great schools. Call Marcus Brandon and thank him for giving our families more choices in education!
