

Suggestions from Gary Bartlett, Executive Director, State Board of Elections

Referenced in House Election Laws 3/6/13

- Recodify Chapter 163
- Unaffiliated voters represent 25.7% -- what role should they play in the elections process?
- Form consortium with states for voting equipment certification and best practices and the same for voter registration
- Provide funding for an online Voter Guide of all candidates who choose to use
- Civil penalties in lieu of most misdemeanors
- Purchase the best and most secure system for the electronic submission of ballots for UOCAVA voters
- Great Divide between rich and low wealth counties – have a safety net at SBE where assistance can be given to ensure all voters receive services, not the wealthy counties
