Re: International Internet Technologies, LLC
Operation of Internet Cafes/Business Centers

Dear Chief Yarborough:

Due to recent events in Florida and based upon advice of both local and Oklahoma counsel, International Internet Technologies, LLC (herein "IIT") will cease doing business in North Carolina until further notice, effective immediately.

While IIT and its principals maintain their innocence of any wrongdoing in Florida, conditions of release and other court orders make it virtually impossible for them to provide day-to-day support for their licensees in this State. Although nothing that has happened in Florida has any direct bearing or connection to matters in North Carolina, the ownership of IIT feels its first priority is to direct its full attention and resources to addressing concerns in Florida.

Furthermore, despite numerous attempts to get a definite answer from the Courts concerning the efficacy of their "pre-reveal" system, the issue remains in limbo. Likewise, they have been led to believe legislation would be filed by now to clarify the situation.

The various local owners, who are licensees of IIT may choose to continue to operate in their current locations utilizing software from other providers. If such is the case and if this firm offers representation, we will, as we have in the past, provide you with all pertinent information. It should take approximately one (1) week for local operators to completely wind business down.
